SEED POTATOES

Spring 2020

Chit Indoors in light and frost free conditions until shoots are ½ to 1” high

Plant March - May when soil is warm and dry 12” apart, 30” rows, 4” deep
(count them out to suit your row lengths)

Earth up to 8” high, protect from frost and choose a sunny site.

Farmyard manure, compost and a high potash fertilizer will increase yield.

Too much nitrogen can lead to cooking, keeping and flavour problems.

First Earlies

- Abbot** Extra Early, High dry matter, good baking & Roast
