**SEED  
POTATOES**  
Spring 2020

**Chit** Indoors in light and frost free conditions until shoots are ½ to 1” high

**Plant** March - May when soil is warm and dry 12” apart, 30” rows, 4” deep  
(count them out to suit your row lengths)

**Earth up** to 8” high, protect from frost and choose a sunny site.

Farmyard manure, compost and a high potash fertilizer will increase yield.

Too much nitrogen can lead to cooking, keeping and flavour problems.

**First Earlies**

**Price per kilogram**
